

Cornice Nr. 116 “Roses & Lilies”

An unusually heavily enriched design, presently this is easily our largest such cornice. It is a particular favourite of the company's Managing Director, he has it fitted in his bedroom and wakes up to it each morning!

It is also our most expensive pattern, but it really does look very, very good when fitted. Many people are genuinely surprised when told this is not two pieces of moulding fitted together, but is actually one large complete section.

Naturally this large cornice is better suited to areas with high ceilings. It seems to be late Victorian in design, would go well in such homes or possibly newer ones with a high entrance hallway.

Projection 285mm. (c.12")

Depth 180mm. (c.7")

Length of Cast 3100mm. (10'2")

Heavily Enriched Profile

Nr. 116 "Roses & Lilies" Cornice

This is approximately 285mm projection, 180mm. deep (down wall). This should be circa half full size at A4.

It's a fairly free, hand drawn sketch so do not rely completely on apparent cross section proportions - the real thing can be inspected at our showroom.

Dotted lines indicate positions of ornate enrichments.
