

Cornice Nr. 131 “Ainsty”

(Georgian in Style)

Another fairly large cornice, this one is quite honestly a super design, to me it has a lot of style and class. It was originally made for a new lounge / restaurant at York Racecourse. Trouble is, only seven years after we installed absolutely miles of this cornice the whole building was demolished to make space for the new 2002 stand.

However since then we have sold a lot of this fine profile, it seems very many of our clients agree with me.

Use this large pattern in an area with a fairly high ceiling, if you want a dentil cornice elsewhere, consider our smaller designs 143 or 114.
