

**Cornice Nr. 138 “Astoria”
(Art Deco in Style)**

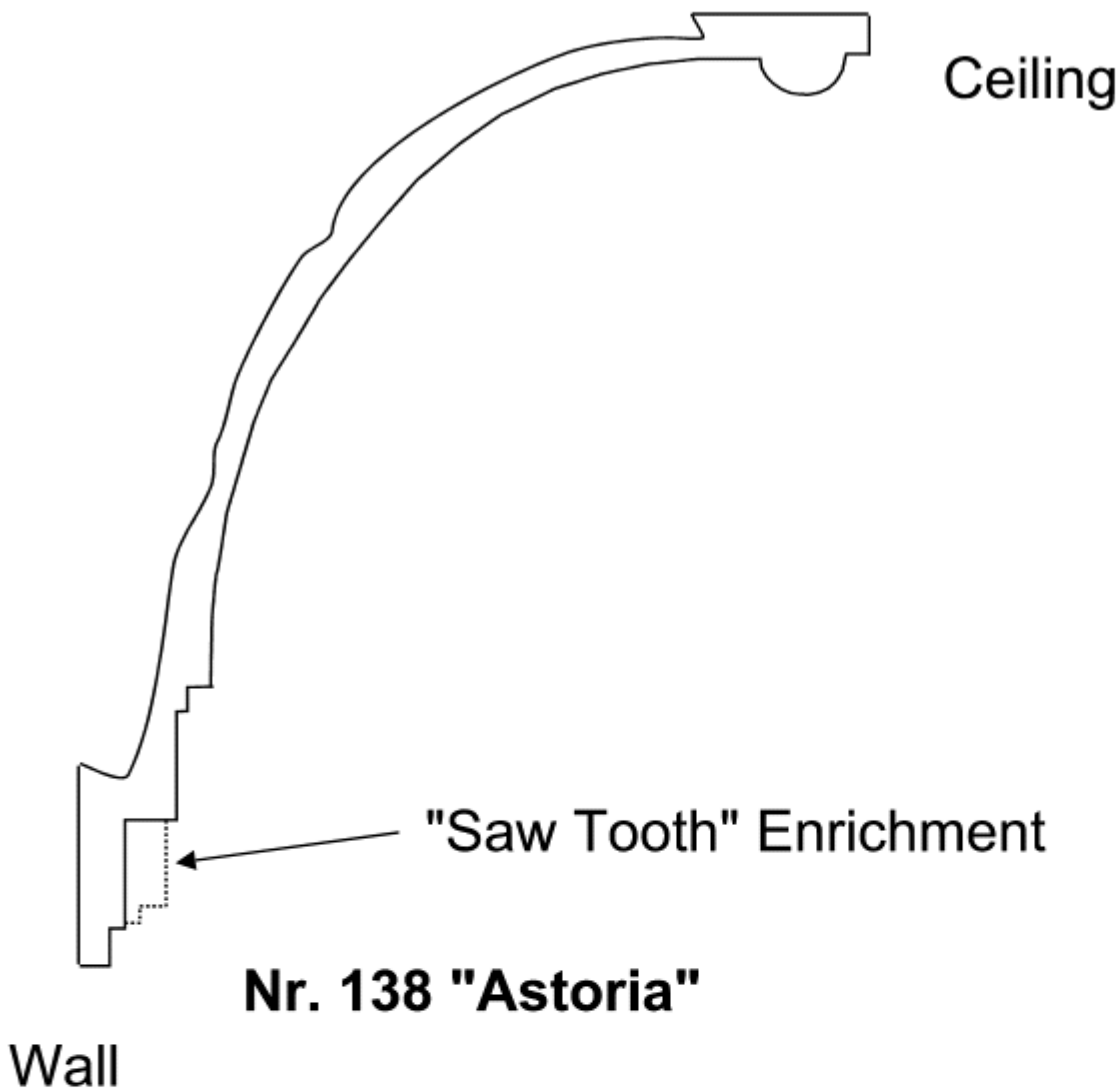

Big - really big this cornice. It should go into large, ideally simple areas. It's also essential that it has a high ceiling.

Can be fitted in commercial and domestic properties, but be warned - this design is not for the timid or for the uncertain. This pattern is for the daring, those know their mind and “what they want”

The reward is a spectacular rarity - a large “Art Deco” design - brilliant!

If, however you're not quite persuaded - look at our Nr. 137 “Odeon” it's smaller and easier on emotions.

Projection 207mm. (c.8”)
Depth 250mm. (c.10”)
Length of Cast 3300mm. (10'8”)
“Sawtooth” Enriched Section

Approximately half full size at A4, there is a piece of this available for inspection at our Yorkshire works.

Please ask to see it, it's fixed at a suitably high level. 207mm projection from wall, 250mm deep down wall from ceiling.
