

**Cornice Nr. 145 “Georgian Egg & Dart”
(Georgian in Style)**

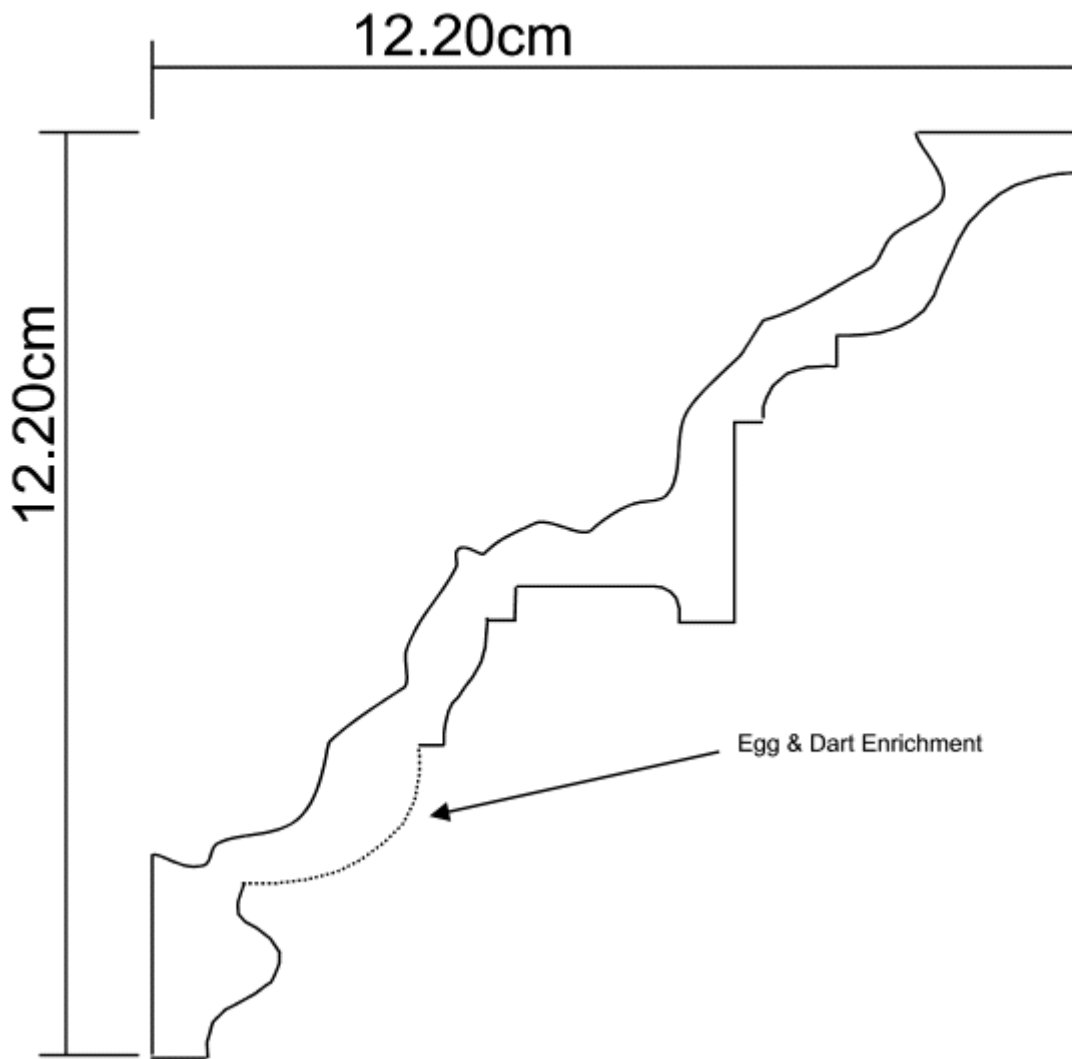

Another “out and out” unarguably 100% Georgian pattern for you to choose from. Just on the “high” side of “average”, think of using this in areas with fairly simple ceiling plan and average / normal ceiling height.

This is suited to an area with a simple ceiling plan, it might however be awkward for the amateur fixer unless the fixer is patient and methodical.

In any event please first consult our DIY page, this time will be well spent. Additionally you could ask our qualified staff members for their expert advice on installation..

Projection 122mm. (c.5”)
Depth 122mm. (c.5”)
Length of Cast 3050mm. (10’0”)
Egg & Dart Enriched Profile

Nr. 145 "Georgian Egg & Dart"

Full size (but not absolutely exact) cross section profile when printed out at A4 size.

A 1500mm section, complete with mitre is on display at our Yorkshire showroom, please do call to inspect it if you wish to.
