

Cornice Nr. 148 “Edale”

A modern, clean design, average sized and possibly fairly straightforward for “amateur” installation.

Better suited for average and higher ceiling heights, will also be OK in areas with a simple or with complex ceiling plan.

Can be used in commercial or domestic situations. Note also the “robust” or “beefy” bottom edge / member - this might perhaps be helpful if you’re wishing to tile up to the base of this cornice.

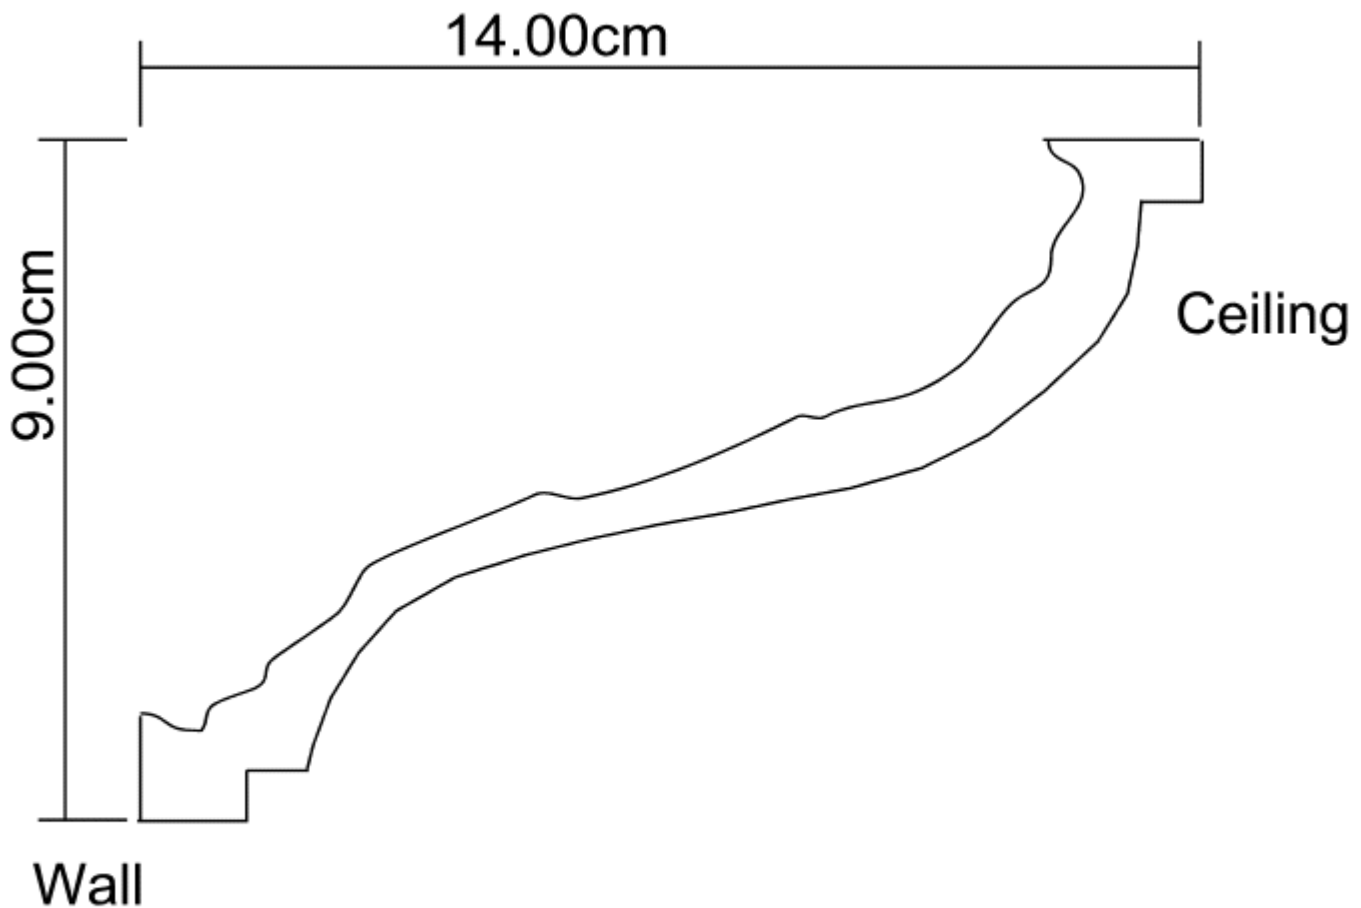

Please also refer to the full size cross section on page two of this document.

Projection 140mm. (c.5.5”)

Depth 90mm. (c.3.5”)

Length of Cast 3200mm. (10’6”)

Plain Run Profile

Nr. 148 "Edale"

Approximately full size when reproduced to A4 paper size.

For your information we also have a section of this cornice design installed in our works - fairly high up.

Please ask to see it if you are able to visit our Dewsbury, Yorkshire premises.
