

## Cornice Nr. 149 “Acanthus”

A very long established Ossett Mouldings cornice design. In truth this pattern was one of our very first into production - more years ago than I really want to admit!

Dimensions are genuinely “average sized”, this is a particularly good looking cornice - especially when installed. It has a nice sharply defined leaf pattern.

For many, many years this was our biggest selling cornice pattern - we had to replace our expensive silicone production mould every year.

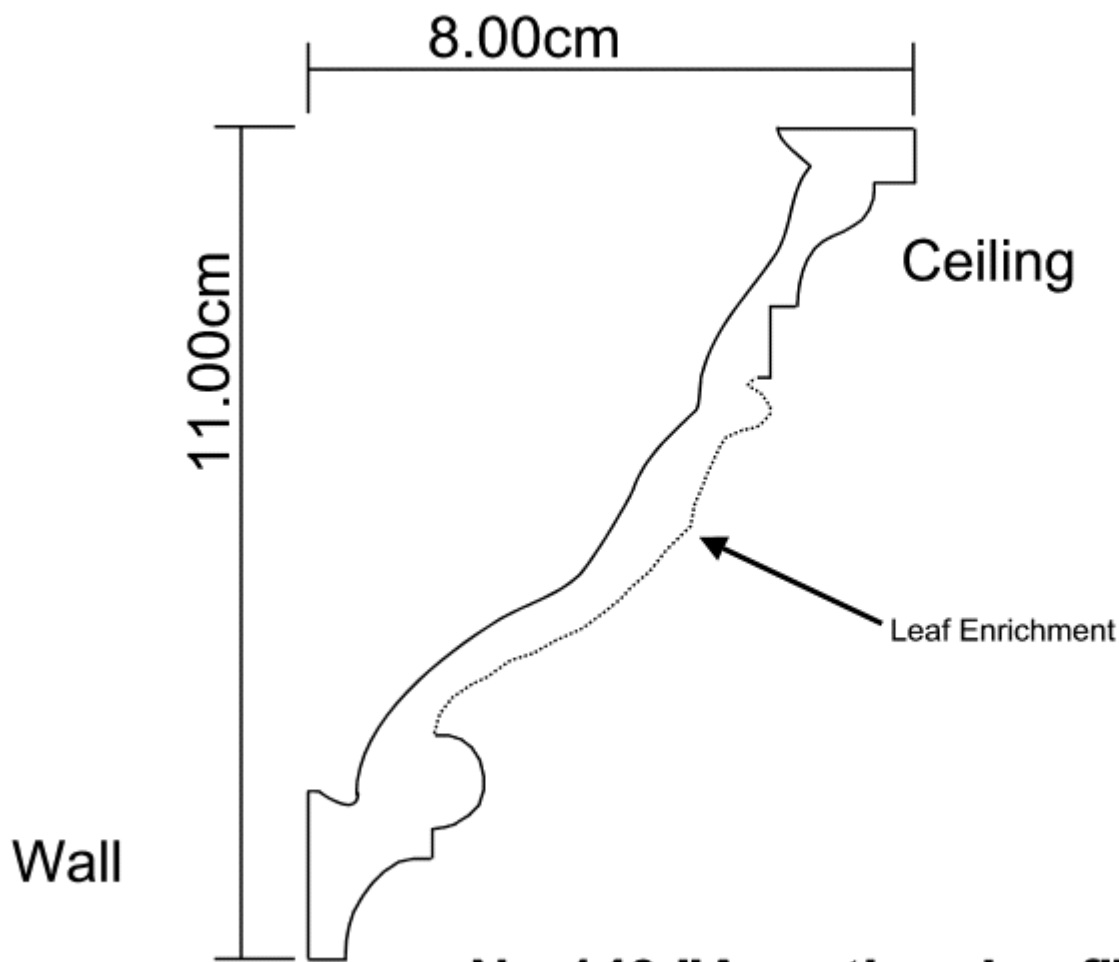

Full size section? See page two of this document.

**Projection 80mm. (c.3”)**

**Depth 110mm. (c.4.5”)**

**Length of Cast 3400mm. (11’1”)**

**Leaf Enriched Profile**

### **Nr. 149 "Acanthus Leaf"**

When printed out at A4 format this should give a reasonable impression of the full size cross section - this cornice design.

A small bay is on display - in our showroom near Dewsbury. Please do call in to view this "in person".
