

## **Cornice Nr. 152 “Garland”**

A long established and important component of our large cornice range, this “medium sized” design has been fitted into many hundreds of premises and properties during the past 25 years (plus) of our production.

This is a cornice of good proportions, it is actually a very nice design that lends itself very easily to creative paint effects such as the light shading that you see here - this photo is of such a section that is installed into our works - in our showroom.

This is a little difficult to install - therefore you may be best Asking Ossett Mouldings Ltd. To install it for you - please At least ask us to provide you with our customary written quotation.

Full size sketch on page two - this document.

**Projection 120mm. (c.5”)**  
**Depth 115mm. (c.4.5”)**  
**Length of Cast 3350mm. (11’0”)**  
**Husk Enriched Profile**

### **Nr. 152 "Garland"**

When printed out to A4 size this should approximate to a full size image of this cornice design.

Additionally there is quite a large bay of this pattern fixed in our showroom. If you are considering buying this moulding, then perhaps you should visit to see it for your self.
