

Cornice Nr. 157 “Brindley”

(Modern Stepped Design)

An unusual design. Totally modern in cross section profile.

This pattern has been installed in very stylish newly built homes and absolutely “this minute” office blocks in very high rental provincial capital centres for multinational companies.

When considering decoration, it could pay to be innovative, I’ve Seen daring schemes look hugely stylish.

Consider also turning this design “upside over” - it can look OK either way up. To help this possibility the photo above is “other” way up to page two of this document - the profile.

This may also suit our “mobile pad” lighting system, please ask.

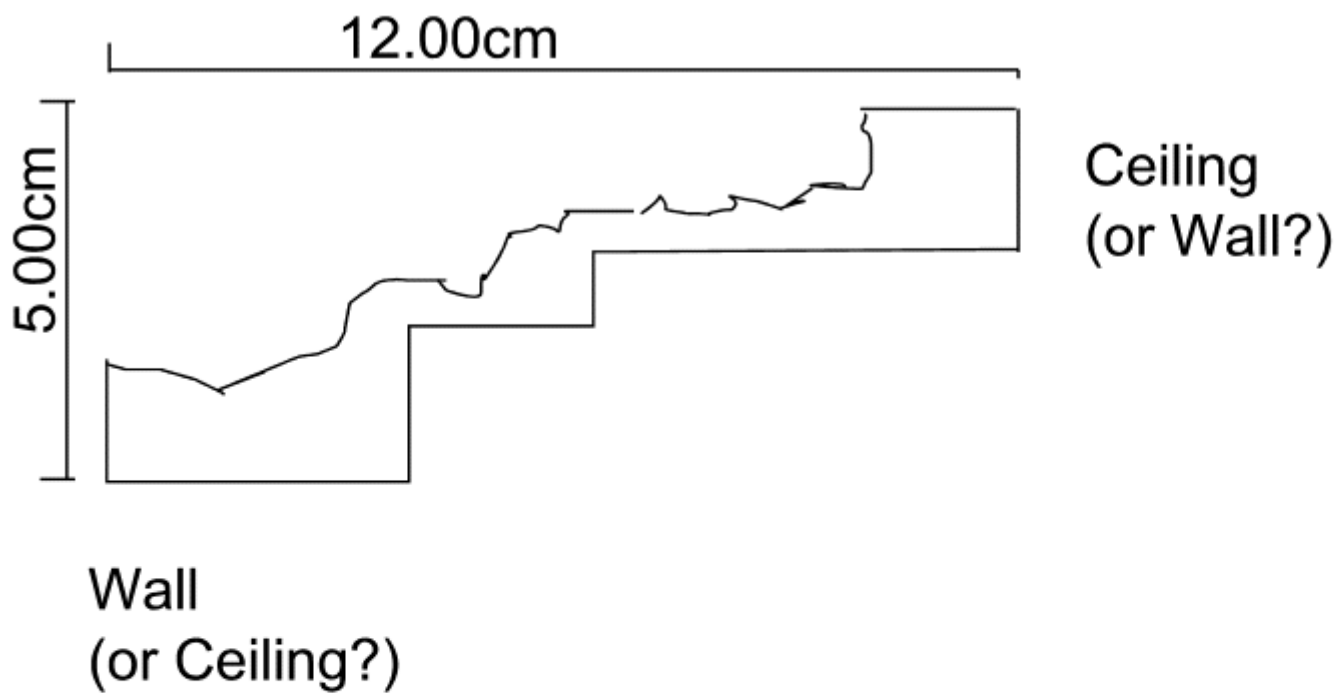

To return, press back button above - I hope your browser has one!

PROJECTION 120MM. (C.5”)

DEPTH 50MM. (C.2”)

LENGTH OF CAST 3600MM. (12’0”)

PLAIN RUN PROFILE

Nr. 157 "Large Brindley"

As noted, this cornice can be inverted if you wish.

Reproduced to A4 size this should resemble a full size cross section of this design.

Page two of two.
